For West Kelowna Council

October 15 2022

The need for more ice is NOW! Rusty led the way 20 years ago for this facility! Vote Rusty so you have a voice on council for more ice!

WORKING HARD FOR A HEALTHY WEST KELOWNA

Rusty has proven to West Kelowna he is a champion for the citizens who works collaboratively to get things done. With our growth and added tax contributions from City of West Kelowna to Provincial coffers it is time we get something back for our investment.

Government is not doing enough for our community. Working along with Mayor and Council we need to get the investment in our growing community for much needed and overdue infrastructure in transit, education and health care. With a new Premier coming into office we have a great opportunity! When it comes to championing the needs of our community **Rusty Ensign is your man!**

VISION • LEADERSHIP • BUSINESS EXPERIENCE

News Release – December 2003

Westside Voters Say Yes

Westside residents have said a resounding yes to the proposed expansion of the Mount Boucherie Recreation Centre. In all, 73 per cent of votes cast in the referendum support the Regional District borrowing up to \$3,288,631 for the Phase 2 expansion of the facility. 27 percent of those voting didn't support the referendum question.

Regional District Chair Robert Hobson is delighted with the outcome of the referendum. "First of all," he says,

"Thanks must go to Rusty Ensign and the team of volunteers who came together with the multiplex vision and worked so hard at the grassroots level to ensure the success of the referendum."

Hobson adds, "The expanded Mount Boucherie facility will be a wonderful asset. This is an important part of the community building process that will be so important on the Westside in the next few years. We hope that the federal and provincial governments will participate with us in the expansion project through the infrastructure program."
